

## Letter of Support Regarding Actuarial Empire, LLC.

In searching for a reference to use for my course covering Exam 4/C I decided to use the textbook provided by Actuarial Empire. Greg & Susan at Actuarial Empire have been extremely supportive in helping to tailor their product to my needs. This text endeavors to provide a concise explanation of the material in an easy to understand format with a number of problems with solutions at the end of each chapter. Recognizing the need for a large collection of problems so as to prepare for the actuarial exams, they have added supplemental material to their website and continue to augment this. They have been exceedingly responsive and have had a positive impact on my class presentation material. By providing a set of slides, consistent with the textbook materials, my students were able to concentrate on the material and concepts being taught rather than trying to write down what was on the slides. The students also appreciate the ability to test their understanding via the end of chapter quizzes.

Their text provides thorough theoretical analysis of each topic as well as a variety of practice problems to reinforce the concepts. The text is concise enough to allow for rapid review of the major topics yet thorough enough to ensure that all topics are covered. The authors are constantly seeking input as to where they can improve their product and are eager to incorporate constructive suggestions. Unlike a regular textbook which is updated only when a new edition is released, this text is continuously being revised from the input they receive. The current version includes most of the recent updates and any further changes are available for download from the web.

The text highlights the aspects that are important and clearly points out equations and theory that is regularly tested. It also warns about those areas that appear from time to time and notes as optional the less important material. This textbook can act both as the official resource for the class and as a study guide to review.

Most importantly however, it is their willingness to tailor their materials and resources to the needs of my course that has made all the difference. Their assistance in helping to provide custom materials, discounts and resources for my class have been terrific. It has been a pleasure working with Actuarial Empire and I hope to continue using them for my Exam 4/C class in the years to come!

Kind regards,  
Basil Rabinowitz
